

*We provide
our customers
with the right
pre-applied
locking & sealing
solutions
for their fastening
demands*

At PRELOK® we offer a complete range of evaluation test facilities and our team of dedicated specialists is available to advise you on the most appropriate solution to your fastening problems.

With technical support, application engineering and processing facilities located throughout Europe and global strategic alliances, we can support your company wherever you are.

Component Processing to One-Stop Shop Solutions

- From miniature items for mobile communication to M30 Bolts for Bridge Construction, we have the ability to process a vast range of components.
- We can also work with a wide range of materials including stainless steel and non-ferrous materials.
- We are approved by a majority of OEMs and have been recognised with a number of industry approvals and standards.
- Complete fastener finishing service including a comprehensive range of corrosion resistant surface treatments.

Our range of products also include: Precote 200, Tuflok, Nytemp, Scotchgrip, Driseal, Microseal, Nytlite, Nyseal and Nyplas.
