

*Focus on - Tuflok*

**TUFLOK**  
*Pre-production  
samples are  
evaluated and then  
processed  
FREE OF CHARGE*

At PRELOK we offer Europe's widest range of pre-applied locking and sealing solutions, eliminating the need for secondary locking devices, hand-applied liquid adhesives, or sealing tapes.

The Tuflok Blue Nylon patch when applied is permanently fused onto the screw thread of the parent component, and increases the prevailing removal torque, allowing the screw to be locked in any position upon assembly.

### **Advantages**

- Blue patch identifies true Tuflok
- Engineered torque flexibility
- Variable patch length and position
- Eliminates secondary locking features such as nuts, washers, etc.
- Automatically locks in any position
- Non Curing
- Plate and Patch
- Resistant to chemicals like alcohol, petroleum, oil, kerosene, diesel fuel and hydraulic fluids

*New production facility opened in  
Finsterwalde, Germany*

Our extensive range of products also include: Precote, Nytemp, Scotchgrip, Driseal, Microseal, Nyltite, Nyseal and Nyplas.
